

Apex Systems — Synthetic RFP Response

Submission date: 2026-08-20

Historical experience rating: 8/10

Executive Summary

Scalable enterprise platform with strong security controls and structured integration architecture.

Proposed Solution

Modular services, REST APIs, RBAC, encrypted storage, monitoring, horizontal scaling and documented APIs.

Implementation Plan

16 weeks: discovery 3, architecture 3, build 6, testing 2, rollout 2. PM, architect, engineers, QA and security specialist.

Commercial Value

Implementation INR 48,00,000; annual support INR 8,00,000. Cloud account and stakeholder access are assumptions.

Security & Compliance

AES-256 at rest, TLS 1.2+, RBAC, MFA, audit logs, vulnerability scanning and annual penetration testing. ISO 27001 mapping described.

Support & Experience

24x7 critical support, comparable enterprise integration projects and reference-project descriptions.
