

NexaWorks — Synthetic RFP Response

Submission date: 2026-08-18

Historical experience rating: 9/10

Executive Summary

Balanced solution focused on implementation predictability, adoption and long-term support.

Proposed Solution

API-first services, configurable workflows, monitoring and documented integration pattern; scalability addressed through stateless services and managed databases.

Implementation Plan

12 weeks with detailed milestones, staffing, risks and mitigations.

Commercial Value

Implementation INR 31,00,000; annual support INR 6,00,000. Cloud consumption is clearly identified as an assumption.

Security & Compliance

Encryption, RBAC, MFA, audit logs, vulnerability management and privacy controls; ISO 27001-aligned processes and periodic testing.

Support & Experience

24x7 priority support, service manager, monthly reviews, incident SLAs and similar transformation projects.
